

# ABC Order

AmerisourceBergen

## Powering your practice with ABC Order

ABC Order powers your practice with a suite of online tools to make placing and managing your pharmaceutical orders simple. ABC Order offers you **immediate and 24-hour access** to pricing, order placement, order tracking, invoices, payments, receiving, extensive reporting and analytics, white-glove help and a sophisticated support services platform.

### Robust search, browsing and filtering

Search is robust, fast and easy to use with filtering and pricing information to make it easy to find what you're looking for.

Color-cues, product images, and rollover icons help you with order accuracy and reduce ordering errors. Instinctive browsing categories with adaptive filters and toggle switches makes procurement a fast and easy experience.

### All-day log-in and order collaboration

Once you log in to ABC Order, you won't be logged out during business hours. In addition, multiple users can add items to the same cart to streamline ordering and invoices.

### Tools help you better manage your inventory

Track irregular inventory and set alerts to be notified when items become available. You can also create notes for products that require specific ordering procedures, and cues for easy decision-making at time of order.

Real-time pricing and contract data ensure pricing accuracy while stock status displays give visibility of back orders or low stock.

### Simplifying multiplication

Many locations? No problem.

**Simple multiple office location ordering** and management and set rules to grant different levels of access for different roles in the office. Additionally, The **multi-cart experience** allows you to easily view and manage cart(s) and access order history.

### Support service functionality

The support area allows you to easily initiate returns and report shipment errors or technical issues.

Getting help quickly has never been easier: use the **on-screen help system** available 24/7 or online chat during office hours for direct access to a Customer Service specialist to help you quickly through any order inquiry.

### Up-to-date delivery status and order information

When you log in to ABC Order the first thing you'll see is your dashboard with important order delivery updates and notifications.
