

February 4, 2021

Dear FluMist® Quadrivalent Customer,

While progress is being made to control the impact of COVID-19 on our communities, we remain sensitive to the increased complexity and financial burden on healthcare providers. As a measure to ease your administrative burden and cost, we have enacted the following enhancement for FluMist® Quadrivalent (Influenza Vaccine Live, Intranasal) customers:

**The 2021-22 influenza season Early Prebook Window has been extended through 4/30/21, as supply remains available:**

- Eligible GPO or PBG contracted customers receive a 12% on-invoice discount for prebook orders of 40 doses or more placed on or before 4/30/2021.
  - An additional 2% rebate is also available in accordance to your GPO terms.
  - All subsequent orders placed after 4/30/2021, while FluMist is available, will still receive the previously established lowest price and best terms.
- Customers who order FluMist for the first time in the season, after 4/30/21, will receive in-season pricing and terms.

We consistently strive to serve healthcare providers and their practices while helping reduce the potential for illness caused by flu. If you require assistance, please contact your Vaccine Business Manager or *AstraZeneca Customer Care* at 1-800-221-1638. We extend our deepest gratitude for your commitment to patients, families, and your local public health.

Sincerely,

**Andrew Leone**  
Executive Director, Vaccines

**2021-22 Distribution Partners:**

**McKesson**  
1-877-625-4358  
**FFF Enterprises**
