Welcome to Besse
The most trusted distributor to physician practices across the nation
At Besse, we speak with thousands of community practices every day. We strive to understand your needs so we can better support your business objectives. Our entire business is built around helping you meet your challenges, large and small.

We offer valuable insights on the wider environment affecting practices like yours. Together we have a strong voice, advocating on behalf of patients in the marketplace, to manufacturers, to government regulators, and to health policy decision makers.

Besse and AmerisourceBergen are making ongoing investments in practice technology solutions to go above and beyond standard distribution. When practices have access to superior technology, we see them become more successful and efficient.

Our investments don’t stop there. We are continuously improving our distribution center with technologies focused on security, product integrity, speed and accuracy. You can be secure in the knowledge that each order will arrive reliably the following business day, and have the fully compliant traceability you need.

Of course, we must get the basics right too. At Besse, ordering and inventory management are stress-free. You aren’t kept holding, nor are you sent to voicemail. Emails are answered quickly. When you have a question, a Besse associate will take ownership and see it through to conclusion.

Community practices and the patients they care for are at the heart of our business. When access to products is improved, delivery is swift and inventory is managed more efficiently, then community practices thrive and are able to provide outstanding health care. At Besse Medical, we’re committed to helping you succeed.

“Yours is the easiest website to use of all the sites I use to order. Overall I am very pleased with Besse.com. Very helpful, shipping is timely and you have made me look like a hero because I have been able to keep our multiple locations stocked! And it’s so easy to pay all of the invoices in one place too.”

- Group Practice Manager in Houston, Texas
ACCELERATED ACCESS
Branded and Generic Products,
Specialty Pharmaceuticals

Besse Medical is one of the most trusted distributors to community physician practices in the nation. Our extensive manufacturer partnerships give practices access to the products they need: pharmaceuticals, vaccines, biologicals and basic ancillary supplies.

It's easy to open an account:

"I had commented on a chat that I needed the product ASAP, but I just ordered it as usual. It arrived the next day (today). Thank you for top notch service, it's why we keep our business with your company."

- Office Manager in Jefferson City, Missouri
KNOWING THE ENVIRONMENT
Specialty Insights

With Besse you’ll benefit from a dedicated Account Manager who will bring unrivalled knowledge to help your practice succeed. They can offer insights on product availability and pricing, regulatory trends and help you navigate the ever-changing contract and reimbursement environment.

With the pressure to operate at maximum efficiency while still providing quality outcomes for patients, practices need to make smart decisions and find a distributor they can trust: a true partner that can produce savings and free up valuable time to be better spent with patients or growing the practice.

Our Account Managers are proactive in alerting practices to changes in their usage that could impact rebates or future pricing on a product. They can advise on contract eligibility and availability. Working closely with manufacturers, we are able to notify about expanded drug indications and new drug launches.

They can also help practices navigate their contract pricing through GPO networks and manufacturer pricing programs to ensure they are receiving the best price.

Besse Medical’s technology solutions help practices improve performance, ensure regulatory compliance and make smarter business decisions – to ultimately free up time and resources to focus on what matters most: their patients.

Our technology solutions start with Besse.com: simple online supply management tools for easy ordering, reporting, and invoice management. These tools make placing and managing your pharmaceutical orders simple. Browse our extensive online catalog and use your desktop or mobile device to place and track orders, generate invoices, pay bills and run reports – for one office or for many.

Next, our inventory management solutions help practices across the country take greater control over their expensive pharmaceuticals.

Finally, we are partnering to offer business intelligence solutions that will let practices unlock the potential in your practice to enhance productivity, reduce audit risk and increase revenue.

“I just finished and submitted online the application to open an account. That was definitely the best online application process I’ve been through to date. Thank you and tell your IT department I said nice work.”

- Dentist in Etters, Pennsylvania

Community physician practices strive to balance running a thriving business with providing excellent care. Besse Medical understands this challenge and offers expert knowledge across the whole landscape of finance and reimbursement.

We work to provide services that can help practices make smarter buying decisions, improve reimbursement efficiencies and reduce administrative burdens.

We understand the importance of maintaining a healthy cash flow inside a practice and we offer the insights and resources to support success.

Practices access real-time pricing online, and can set reminders to take advantage of discount buying opportunities to maintain the best price.

Through data analysis, we offer practical guidance on how to make smart purchasing decisions and develop effective product-buying strategies.

Over decades, Besse has shown itself to be a steadfast partner for practices, helping navigate regulations and the ever-changing contract and reimbursement environment.

“Thank you so much for your help. I wish all suppliers were as prompt with a response as you have been. I appreciate it.”

- Medical clinic owner in Three Forks, Montana

Driven by a deep understanding of the vital care you provide, Besse Medical, an AmerisourceBergen company, accelerates access to the products, insights, technology and guidance you need to maximize practice performance and elevate the patient experience.

As your specialty supplier and solutions partner we go beyond the product, delivering the key knowledge that creates opportunities for growth; technology solutions that optimize critical areas of your practice; and insights that lead to smarter reimbursement and financial decisions.
"I received my flu vaccine shipment and wanted to let you know I appreciate the way Besse handles this, how fast and easy this process is at Besse, and how beautifully the vaccine was packaged."

- Purchasing Agent in Boulder, Colorado

"Such service! ...You are all wonderful! Thank you for your service and help with this matter."

- Pharmacy Head Tech in Pensacola, Florida
